THE GOLD STANDARD

- In collaboration with our guests and collaborators.

COLLECTIVE

Our events have a community based nature, which means that they are supported by thousands of hours of collective effort. This is something we do together, with everyone's best in mind. Please reach out if you want to be a part of it.

PRESENT

Stay away from cameras, cellphones and other electronic equipment as much as possible. This moment is the most precious gift, pay attention and you shall receive.

AUTHENTIC

We will aspire you to express your true self, and ourselves be non-judgemental in return. Authenticity and realness is expected from all participants. Leave any ulterior motives behind.

RESPECTFUL

This is our sacred space, and this is not a place to get drunk and intoxicated. Please stay alert, awake, vital and healthy. Respect the vibe.

INCLUSIVE

We are in this together, and we will stay in this together. Forgiveness and acceptance is the way.

RESPONSIBLE

Recycle, and preserve mother earth, take care of each other, take care of yourself. Let there be gold dust in your footprints.

CONSCIOUS CLUBBING

An OMG Event is not just another party where you go to get drunk and intoxicated.

The events are designed and intentionally fitted to liberate and evolve both the individual, and the collective.

There are performers, hosts, stands, guidelines, and other inspirational content on offer.

We recommend our guests to stay sober, and indulge only with presence, connection, music and arts.

Because ecstasy is near.

MIDSUMMER FESTIVAL

VIKING VILLAGE
SNARTEMO, AGDER

21 - 25 JUNI 2023

Welcome to Soria Festival
An intimate midsummer festival in the mountains
of southern Norway.

Soria Community was born out of OMG Events in
2016 and has since gained about a thousands
members nationwide. For the first time we invite
everyone to gather for several days, each
contributing to a collective celebration of our dear
sun.

We are lovers of the sun.

High vibes

We believe that cultural events should not be mass produced corporate initiatives. We strive to create events with both integrity and intention, inspired by our solar powered community. Some of our collaborators are avant-garde event and dancefloor producers within the techno, psytrance and ecstatic dance scenes.

Expect high vibes.

The power of the sun

Our vision is to create cultural content that promotes liberation and human development. We believe that with the power of the sun, nothing is impossible
