THE GOLD STANDARD

- A contribution from all our guest and associates

COLLECTIVE

Our events have a community based nature, which means that they are supported by thousands of hours of collective effort. This is something we do together, with everyone's best in mind. Please reach out if you want to be a part of it.

PRESENT

Stay away from cameras, cellphones and other electronic equipment as much as possible. This moment is the most precious gift, pay attention and you shall receive.

AUTHENTIC

We invite you to express your true self, and we promise to not be judgemental. It is expected that everyone attending an event does as best as they can to be authentic and real without hidden intentions.

RESPECTFUL

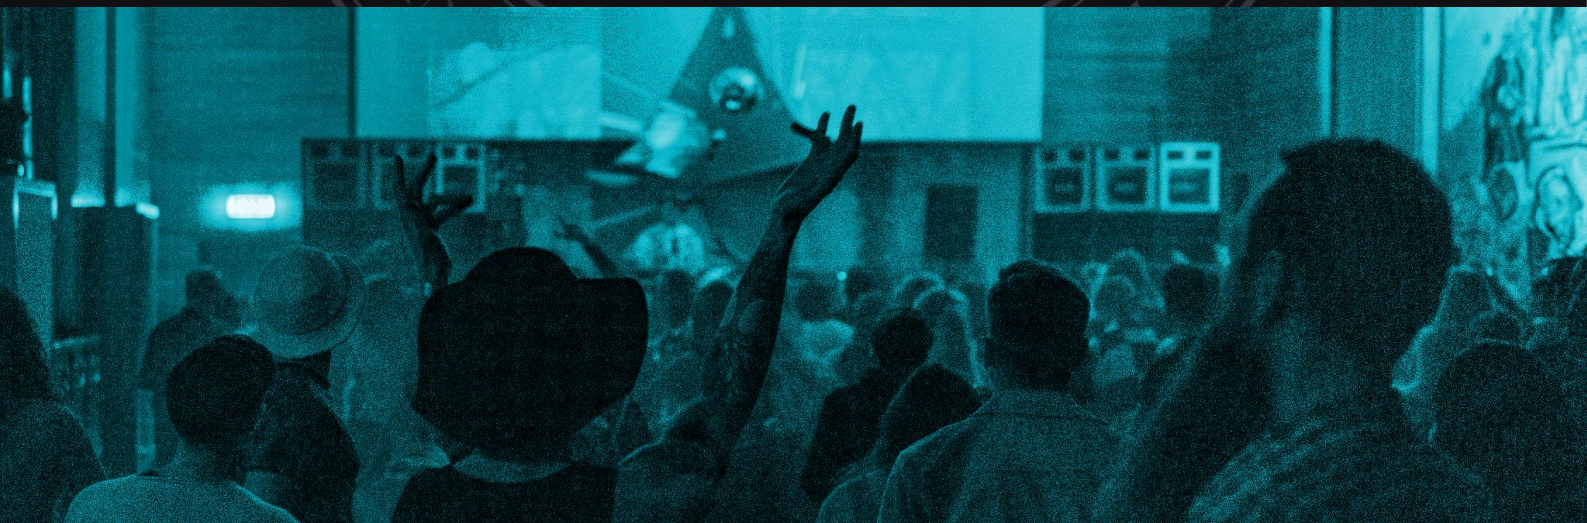

This is our sacred space, and this is not a place to get drunk and intoxicated. Please stay alert, awake, vital and healthy. Respect the vibe.

INCLUSIVE

We are in this together, and we will stay in this together. Forgiveness and acceptance is the way.

RESPONSIBLE

Recycle, and preserve mother earth, take care of each other, take care of yourself. Let there be gold dust in your footprints.

SORIA

MIDSUMMER FESTIVAL

VIKING VILLAGE
SNARTEMO, AGDER

21 - 25 JUNI 2023

Welcome to Soria Festival
An intimate midsummer festival in the mountains
of southern Norway.

Soria Community was born out of OMG Events in
2016 and has since gained about a thousands
members nationwide. For the first time we invite
everyone to gather for several days, each
contributing to a collective celebration of our dear
sun.

We are lovers of the sun.

High vibes

We believe that cultural events should not be mass produced corporate initiatives. We strive to create events with both integrity and intention, inspired by our solar powered community. Some of our collaborators are avant-garde event and dancefloor producers within the techno, psytrance and ecstatic dance scenes.

Expect high vibes.

The power of the sun

Our vision is to create cultural content that promotes liberation and human development. We believe that with the power of the sun, nothing is impossible
